

New Smoking Fetish Movies added at [Smoking Flicks](#)

This week we've added three vintage CoherentLight videos at [Smoking Flicks](#) – the smoking fetish movie streaming and download site. Perhaps the most intriguing is “Kris Solo,” a compilation featuring one of CoLight’s earliest accomplished teenaged models – it was never released as a full video for wide release and we believe it is being seen here publicly for the first time. We also have the dark side title “The Humiliatrix” and the glamour title “Beth: Right At You.”

Come check them out at [Smoking Flicks](#)
