We've added new smoking fetish movies at [Smoking Flicks](#) – the smoking movie streaming and video download site.

First, we're very pleased to announce that after seven years, one of CoherentLight's legendary models returns in this NEW RELEASE. Maddie has grown from a beautiful girl to a sophisticated woman – but of course, she's still a phenomenally accomplished smoker with her uniquely feminine style. Cheek-hollowing drags and double drags, huge snaps and frenches, thick cone and nose exhales, right-at-you scenes – and Maddie's unforgettable smile that shows you how much she loves every molecule of smoke she inhales. There's also a little dialogue, where she tells us what she's been up to since we last saw her seven years ago. This title has natural sound and some dialogue.

Then in a Europesmoke compilation, there are three scenes with Blanche and three scenes with Valentine. Sophisticated Blanche smokes beautifully as she talks starting very young, smoking with her teen friends, and where and when she likes to smoke. French model Valentine is very much into her smoking and loves talking about it; she talks with the interviewer about how she got started and why she loves it as she shows textbook mouth/nose exhales and slight snaps throughout.
